

## Gabriela Hernández

---

### Core Skill:

Java

### Industry Verticals:

Gaming  
Media  
Technology  
Entertainment  
Payments

### Programming Languages:

Java  
C#  
JavaScript  
SQL  
C++  
Visual Basic  
HTML

### Databases:

Microsoft SQL Server  
Oracle  
PostgreSQL  
MySQL

### Tools & Techniques:

Maven  
Git  
React.js  
Spring boot  
Unity  
Unreal 4  
AWS services

### Summary:

Experienced Full Stack Developer with over 6 years of diverse expertise. My focus lies in crafting robust applications using Java and Spring Boot, with proficiency extending to C# .NET and Web Services including SOAP and REST. I also excel in Mobile Development and solid bases in HTML, CSS, and JavaScript. I have good knowledge in React. Proficient in SQL for effective database management, I'm always eager to embrace and master new technologies. I have a true passion for learning about the new and best technologies in the industry, and I am constantly looking to enhance my skills and knowledge. Points of interest: \* Web Applications. \* Videogames development. \* Mobile Development. \* Virtual Reality. \* Desktop Applications.

### Qualifications:

#### Educational Background:

Licenciatura en Multimedia y Animación Digital,  
UANL - Facultad de Ciencias Físico  
Matemáticas, 2018

### Spoken Languages:

Spanish, Native  
English, B1

### Soft Skills:

Autodidact  
Leadership  
Problem Solving  
Effective Communication  
Analysis  
Teamwork

## PROFESSIONAL EXPERIENCE
